## Preliminary

# Notes

All workstations must be updated after the TimeClick server update

Presets saved in previous versions of TimeClick 18 will not be saved upon updating, but when the presets are recreated after the update they are saved in the database allowing the admin to share presets with other admins and employees

A Legacy Hours Report, or former Hours Report, with former settings and formatting is still available

#### Primary changes include

- Increased flexibility with what information appears on reports
- Tracking of hourly and salaried employees
- Handling shifts crossing over midnight
- Easier clock action error detection & correction
- Report formatting changes
- Include/exclude employees with 0 hours on reports
- More accrued time details on reports
- Color coding to visualize negatives, errors, etc.

For more detailed release notes, visit this article.

This manual is a key, or a reference for those exploring the new advanced settings and functions in the new reporting system. Not all the new features in TimeClick version 18.3.0.0 are discussed in this guide. Resources for other new features are available in the Support Center on our website <a href="https://www.time-click.com">https://www.time-click.com</a> and on our YouTube Channel.

### **Summary Report**

The biggest change in the Summary Report is formatting. All the settings are similar to the basic Hours Report settings. The admin can choose to display accrued time and other time actions on the summary report.

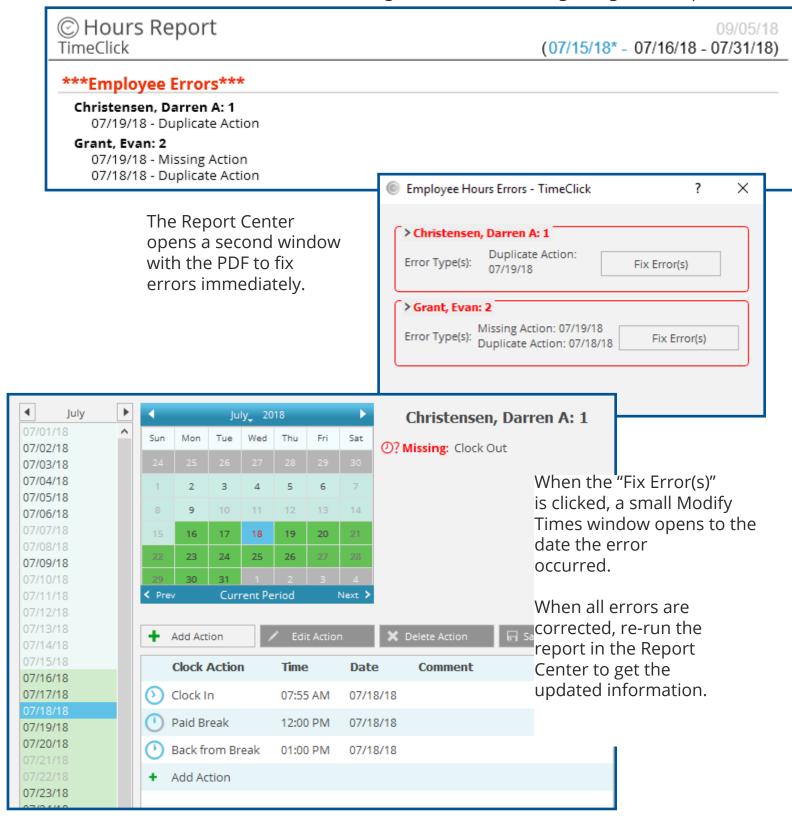

Numbers in grey show that either zero hours were worked or hours were worked in a department an employee is no longer assigned to. For example, if Sarah was moved into another department and was removed from her previous department during the pay period but had hours worked in that previous department, you will see her hours in grey.

### Fixing Clock Action Errors on Reports

A new method of detecting and correcting clock action errors such as a missing or duplicate clock in/out has been added to the report system.

Clock action errors for the entire date range are listed at the beginning of the report.

### Other Report Notes & Pro Tip

The Condensed Hours report has been left unchanged by this update

The formatting and basic, non-advanced settings for the Legacy Hours, or former hours report are still available for those who prefer that report format

Hover tips are now available. Hover your mouse over report options to get a brief description of the option or setting

The default settings in the previous reporting system are the same in the new reporting system of 18.3.0.0

#### Pro tip:

Right-click on any list or group of boxes in the report settings to have the option for checking/unchecking all the boxes in the section and all the settings in the one setting type your mouse is currently hovering over
